Getting Started with Data Analytics on AWS
.Net Full Stack Foundation

Umar Farid

Software Engineer | .NET & MERN Stack Developer | Building Scalable Web Apps with AI/ML
Sahiwal, Punjab, Pakistan

Summary

I'm a Computer Science graduate from COMSATS University Islamabad with a passion for building robust, scalable web applications - from pixel-perfect frontends to powerful backend systems. My journey started with curiosity about how software shapes real lives. That curiosity turned into hands-on expertise across the MERN Stack (MongoDB, Express.js, React.js, Node.js) and .NET Full Stack development (ASP.NET Core, C#, Entity Framework) - two ecosystems I now use professionally as a freelance developer. I've also earned certifications in AWS Data Analytics and .NET Full Stack Foundation, and I'm actively exploring the intersection of AI/ML and web engineering - because the future of software is intelligent. What I bring to the table: End-to-end web application development (REST APIs, SPA frontends, database design)Clean, maintainable code with a focus on performance and scalabilitySelf-driven work ethic, honed through freelance client deliveryA fast-learning mindset - I pick up new stacks quickly and ship Currently open to full-time Software Engineer / .NET Developer / Full Stack Developer roles - remote or on-site - where I can contribute from day one and grow with a strong engineering team. Let's connect: umarfarid034@gmail.com

Experience

Freelance

Web Developer

December 2025 - Present (4 months)

Designed and developed full-stack web applications for clients using the MERN Stack and .NET Core, delivering production-ready solutions on time. Built and integrated RESTful APIs with Node.js/Express and ASP.NET Core, reducing client backend setup time by handling end-to-end architecture. Developed responsive, component-based UIs using React.js, improving cross-device user experience.

Managed client requirements independently — from scoping and wireframing to deployment — demonstrating strong project ownership and communication. Maintained clean, version-controlled codebases using Git/GitHub, enabling smooth iteration and client handoffs

Freelance | Self-Employed

.NET Developer

January 2025 - Present (1 year 3 months)

Education

COMSATS University Islamabad

Bachelor's degree, Computer Science · (February 2022 - February 2026)
